## SKILL:

---

- ❖ HTML/CSS/JavaScript/ TypeScript
- ❖ React.js/Next.js
- ❖ Express/ Node.js
- ❖ MongoDB
- ❖ Tailwind CSS
- ❖ Git/GitHub

## EDUCATION:

---

- ❖ **Bsc.CSIT** - Amrit Science Campus **2022-2026**
- ❖ **Science (+2)** - St Lawrence College **2019-2021**

## PROJECT:

---

- ❖ **Kura – Chat Web Application**

Developed a real-time chat application that allows users to communicate through text messages. The application features an intuitive user interface and supports group chats, file sharing, and notifications.

**Technologies Used:** React.js, Node.js, Mongoose, SCSS, Chart.js, Redux, Socket.io, Cloudinary, Express, Multer etc.
- ❖ **Pasal – E-Commerce Web Application**

Created a comprehensive e-commerce platform that facilitates product browsing, shopping cart functionality, and secure checkout processes. The platform supports user authentication and order tracking.

**Technologies Used:** TypeScript, React.js, Node.js, Mongoose, Firebase, Chart.js, Redux, SCSS, Cloudinary, Express, Multer, Node-Cache etc.
- ❖ **Chanda – Fundraising Web Application**

Developed a platform for individuals, creators, and companies to raise funds from the public. The application allows users to create fundraising campaigns, track donations, and manage fund distributions.

**Technologies Used:** Next.js, Mongoose, Next-Auth, Tailwind, Edgestore etc.
